DETAILED ACTION

1. This action is in responsive to the application filed 11/19/2003.

Claims 1-51 are pending in this application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, 27-32, and 42-43 drawn to *dynamic binding*, classified in class 719, subclass 331;
 - II. Claims 16-21, 33-36, and 44-47 drawn to *task management*, classified in class 718, subclass 100; and
 - III. Claims 22-26, 37-41, and 48-51 drawn to *resource allocation*, classified in class 718, subclass 104.
3. The inventions are distinct from each other because of the following reasons:

inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d).

Art Unit: 2194

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, and vice versa, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
